

# Hassia Introduces unique smart machine features

## Operational Intelligence

- User Friendly HMI.
- Pictographic feature for operator Convenience.
- OEE Analysis-( i. e Machine Efficiency, Idle Time, Down Time etc..).

## Maintenance Intelligence

- Pre warning of critical part's like : Motor, Mechanical Jamming of assembly.
- Preventive maintenance will avoid part failures.

## Communication Intelligence

- **Production Data** : Machine OEE, Alarm History.
- **Remote Connectivity** : Machine breakdown issues solved remotely.
- Mail Notification for all of the machine related activities.

## Smart Machines with Smart Features

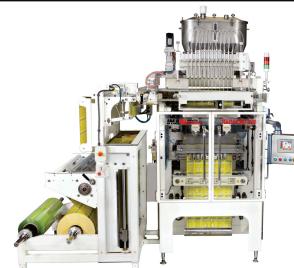

**400 Bagger Machine  
with Auger Filler**

**FB 450T  
with Belt Weigher**

**FB 280  
with Auger Filler**

**FB 1200  
with Piston Filler**
